

Name _____ Date _____ Period _____

When Is an Inverse a Function? - Warm-Up

Algebra II Honors | Unit 1 | Lesson 12 Warm-Up | TEK A2.2.C

Objective: Three quick questions before today's lesson: today's skill, a review skill, and a skill you will need today.

1. Today's Skill

For $p(x) = (x - 6)^2$, find the vertex and a restriction making it one-to-one.

Vertex: _____ Restriction: _____

2. Spiral Review

Derive the inverse of $q(x) = (3x - 4)/2$.

$q^{-1}(x) =$ _____

3. Skill You'll Need Today

Solve $x^2 = 64$ for x , then explain why both solutions are valid even though the problem does not specify a sign.

$x =$ _____
